

Ventilator for shingle roofs

Data sheet

KALA®

Ideas for the roofs!

Function:

Ventilation of the intermediate roof spaces in the case of shingle roofs using bitumen shingles. The flexible outlet vent connection, which can be provided as an accessory, allows the element to be used as an outlet vent. This preserves the uniform appearance of the roof contours.

Options:

Can be supplied in brown and black as standard colours, as well as in grey, green or red as special colours. Further colours on request

Dimensions:

Base
Length 410 mm
Width 325 mm
Upper part
Length 300 mm
Width 195 mm

Packing:

packed in box;
packing unit = 10 pieces

Accessories:

Connection for outlet vent

Connection for outlet vent as accessory

The installation specifications of the roof sheeting manufacturers must be adhered to; the materials and material compounds used are subject to change; where necessary, further tests are to be carried out.

Custom-made products cannot be exchanged.
