

Inner and outer corner for roofing membranes

Function:

Moulded part for connections and terminations at corner formations, usable on both sides (see image).

Variants:

PVC Light Grey, Anthracite Grey, FPO/PP in White, Grey, Beige Grey, and Anthracite Grey for connection to the respective matching roofing membrane material variant. The materials are modified to be weather-resistant: UV-stabilised against heat degradation and oxidative ageing as well as cold impact resistant.

Connection type:

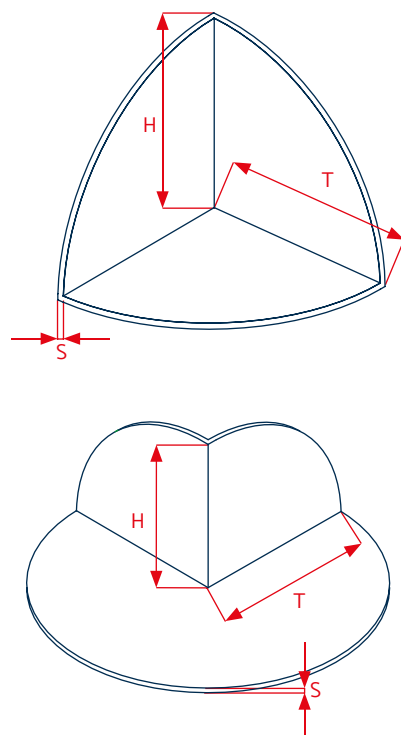

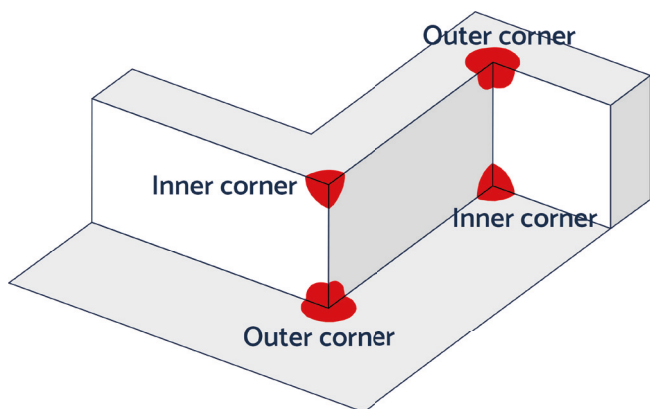

Prefabricated corner for direct connection to the roofing membrane

Material:

- PVC Light Grey, Anthracite Grey
- FPO/PP White, Beige Grey, Grey¹, Anthracite Grey

Packaging units:

Delivery in box, PU 25 pieces

Technical data		
	Inner corner	Outer corner
H	95 mm	102 mm
T	85 mm	90 mm
S	2 mm	2 mm

¹Also available in PE (roofing membranes based on PE) (inner corner)
