

Cross spacers height: 18 mm

Function:

For laying slabs in a gravel/grit bed.

The tile spacers serve as spacers for forming permanent joints in accordance with the regulations.

The three-armed tile spacers mean you can lay flooring cleanly in a bond or at the edge.

Versions:

- Joint widths 3, 4, 5 and 10 mm
- An arm can be easily broken off at the notch
- Tile spacer with three wings (T-cross) for 3 and 5 mm joint widths
- Default color black
- A transparent model is also available for ultra high-end patios
- Special colors available on request

Package units:

Supplied in cartons, PU 300 units
